## **TRUMETER ACQUIRES COUNTING & TIMING DIVISION OF KESSLER-ELLIS PRODUCTS**

Eatontown, NJ -Today Trumeter US, headquartered in Florida, announced the acquisition of the counting & timing division of Kessler-Ellis Products (KEP).

KEP is a designer and manufacturer of counter/timers, process instruments, HMI solutions and PLC operator interfaces.

Trumeter is a global designer, manufacturer and distributor of sophisticated measurement instruments, commercial lighting systems and LED lighting and touchsense products and technologies. Their engineers design and invent innovative products that meet and exceed their customers' specifications and expectations. Operating in the UK since 1937 and in the USA since 1938, they have sales in more than 30 countries through a worldwide network of Sales Executives, Distributor Partners and strategically located operations.

"With the addition of the KEP Counter/Timer product lines to our portfolio, Trumeter continues to increase the depth and breadth of our product offering" Frederick Hickey, President of Trumeter US said. "This acquisition follows the same model as our previous acquisition of Redington Counters, in which we gave every customer and prospect the benefit of a wider selection of products, the support of a world class customer service and order fulfillment team, and the opportunity to deal with a company that has incredibly strong core values: innovation, integrity, ambition, teamwork, and customer driven."

"I am also very excited that Richard Woods is joining the Trumeter team" continued Fred, "as 'Rich' will provide continuity for our customers for both the commercial relationship and technical / product advice."
